## EUROPE TRANSFORMED

Old Countries Rapidly Becoming Collection of Fascist States

## OLD COUNTRY INVOLVED

Transformation in Few Years Most Amazing in History, Says Observer

LONDON, Jan. 14.—Europe is about to become a collection of Fascist states.

Seven years ago Europe seemed about to become a collection of Bolshevik states.

In a nutshell the above presents the story of the most amazing transformation in history, namely that this old continent has ever known in all its troubled history.

Seven years ago Russia was in the cauldron of revolution and the contagion seemed about to spread to the rest of Europe. A brief attack of it under the leadership of Hungary had it under Benito Mussolini. The revolutionaries of Italy seemed to hold that two years later they would have the metalworking plants in northern Italy and flow the flag from there.

In Great Britain revolution was in the air. The ruling classes, frightened by the prospect of hundreds of thousands of unemployed men and women, were home and finding their jobs taken by the unemployed.

Today, however, the picture is entirely different. The unemployed have been reduced to a negligible number. The unemployed have been reduced to a negligible number.

#### WHERE EXTREMES MEET

The Progressives at Ottawa refused to accept the seating arrangements made by the official in charge, and insisted on sitting on the Opposition side of the House. That by way of demonstrating their independence of the Government, not their affiliation, alliance, concord or sympathy with the followers of Mr. Meighen. The gesture indicates nothing more serious than the punctilious desire of the Progressives to shun the very appearance of fusion.

The left hand side of the Commons chamber is now the assembling place of political extremes. The high tariff Conservatives and the low tariff Progressives may sit next each other, or with one another; the fact remains that their political conceptions are as far apart as the poles, and any sort of co-operation is impossible without a compromise of principle on the part of one or both. The important point is not what these two Progressive members put their feet under, but whether they stand up to vote in support of the reasonable tariff Government, or tooust that Government and impose a "Hamm's gallows" tariff on their constituents and the country.

#### WHAT IT AMOUNTS TO

A cargo of wheat has left Halifax—the first since 1924. If that wheat was grown in Western Canada, the cost of landing it at Liverpool from Fort William will be 35 cents per bushel. The rate from Vancouver to Liverpool is 22 cents per bushel. It costs the Alberta grower from one cent to three cents per bushel more to ship his wheat to Fort William than to Vancouver. The difference in the shipment of wheat in winter from points in this province is not what it is saving of from 12 to 14 cents per bushel in favor of the Pacific route.

In times of low prices that spread in freight rates is enough to make the difference between money gained and money lost to the Alberta wheat grower. In times of high prices it makes his family the difference between a fair living and a good living. With prices high or low, it is a margin large enough to be worth while. Despite the known saving, there must be a good deal of indifference in Alberta toward the western route. Otherwise not a bushel of Alberta grain would go eastward. But last year we sent only fifty-five million bushels westward. Half the crop must have gone the longer and more expensive route. It is time that Alberta farmers, and everyone connected with the grain trade, woke up to the fact that this province is losing millions of dollars in gross income every year by not making the Pacific the exclusive outlet for our grain crop.

#### GUARANTEED QUALITY MEANS THE BEST PRICE

An Ottawa despatch says that, beginning with the coming month, the Dominion Government will introduce a system of grading of dairy products. An act was passed in 1921 providing for the establishment of such a system, to come into effect on proclamation of the Governor-General. Under it the Minister of Agriculture is authorized to appoint graders and create all the machinery necessary for grading "butter, cheese and other food products manufactured from milk" when such are offered for export.

The object is to assure that Canadian dairy products going on to foreign markets shall have a uniform standard of excellence. Without such regulation the foreign buyer would have no guarantee as to what he was getting when he bought Canadian products, and these could not secure and hold a preferred position in the great consuming countries of the world. Britain is our chief customer, and the British buyer has the world to choose from. He is not likely to buy goods as cheap as to quality, we cannot hope to compete on equal terms with Denmark and other countries which offer him Government-guaranteed quality.

No part of Canada is more vitally interested in gaining for Canadian butter and cheese abroad the best name—and the best price—possible. Because Alberta is far from the overseas market, only the highest price going will give our farmers and dairy interests a satisfactory return. Alberta dairymen have established their claim to produce butter and cheese of a quality that is not excelled in Canada. They, and the farmers who supply the milk, cannot expect to have such quality of their milk, unless subject to discount abroad. A grading system which will give the overseas buyer assurance as to the standard of products he may look for from Canada will be heartily welcomed by the dairy farmers and dairymen of this Province.

## OUR DAILY POEM

By EDGAR A. GUEST

**OLD MAN GREEN**  
Old Man Green, you've never heard of,  
Tapers never used a word of  
Him or anything he did;  
Home as though his light was hid  
Day by day from mortal eyes.  
Never clever, great or wise;  
Just a carpenter who made  
Odds and ends and fixed his trade.

Old Man Green lived over there  
In that humble cottage, where  
Five plump babies came to life  
Those small rooms with happiness;  
And as time went on they grew  
Just as rich men's children do;  
Three stout boys and two fine girls  
With the prettiest of curls.

Old Man Green from day to day  
Put up shelves to earn his pay,  
Took the little that he made  
Following faithfully his trade,  
And somehow his wife and he  
Managed it most carefully  
And five children, neat and clean,  
Answered to the name of Green.

Old Man Green with saw and plane  
Little from the world could gain  
But his little shop he earned  
Many things his children feared;  
"Those Green boys," the teachers said,  
"Have the stuff to get ahead."

This is all there is to tell,  
Boys and girls are doing well,  
Each with courage and with grace  
This is life in an honest place;  
Old Man Green is dead and gone,  
But his worth is shining on,  
His wife, his wife he needs,  
As a father he succeeds.

## Do You Remember?

### FORTY YEARS AGO

From the Edmonton Bulletin, Saturday, January 13th, 1886.

Col. Quimet, of the 6th, who so successfully held down the fort and sat on the Edmonton home guard during General Strang's campaign at Pitt, has been awarded a confederation medal, no doubt in consideration of these distinguished services. Capt. Labranche, drill instructor of the battalion, who furnished the pluck, brains and experience to carry the active wing of the battalion creditably through the campaign, has received no recognition of his services, or even bare pay. In Canada good service must be its own reward.

There is an impression abroad that it would be exceedingly advantageous to the country and the Government to have the half-breed scrip business settled satisfactorily before spring opens and the noble reeds have a chance to spread themselves.

Mr. Grobriens coal for his own use on his claim on the west side.  
Ball at Ft. Saskatchewan on New Year's night given by the police. A very pleasant and successful affair.

### THIRTY YEARS AGO

From the Edmonton Bulletin, Monday, January 13th, 1896.

Winnipeg—The Venezuelan commission has commenced its labors.

Winnipeg—The Cuban insurgents are doing a great deal of plundering, but not much fighting.

Winnipeg—The Ottawa Government's remedial legislation bill contains 170 pages. The Ministers who framed it fear it is too big to pass the present parliament.

Ottawa—It is believed Howell has resigned and Hon. Frank Smith has been asked to form a cabinet. He will refer His Excellency to Tupper, who it is thought will be the seven resigning ministers to join his cabinet. It is reported that other ministers have resigned.

W. T. Henry has been elected captain of the hockey club.  
Dan Noyes, trader, is in from Jasper House with fur.

R. Secord bought a \$450 lot of fur from E. Brosseau of St. Albert.  
Fred W. Armistead shot a black bear in the Beaver Hills south of Ft. Saskatchewan.

L. V. Lillie (Blue) is in town from Grand Rapids with fur for sale.

### TWENTY YEARS AGO

From the Daily Edmonton Bulletin, Saturday, January 13th, 1906.

After an expenditure of nearly \$25,000 the Western Gas and Oil company have struck gas in their workings in the east end of the city between Kintore and Ross.

Arthur Congdon, wholesale boot and shoe dealer, Winnipeg, has been in the city for the past few days with a view to locating a branch of his business in Edmonton.

The report was confirmed in the city this afternoon that the C.P.R. and the G.T.P. have appointed the proposed Ninth Avenue crossing for the purpose of ascertaining the character of the bottom of the river there, on which the piers of the new bridge will have to rest.

The indications are that the fur exports from Edmonton in 1906 will be the largest ever made. It has never been known just what the total shipments from here have been. Well informed fur men say the total for this season will not be less than a half million and should crowd the million dollar mark closely.

H. F. Sandeman, Strathcona, agent for the C. and E. Towns Co., has received instructions to withdraw the company's lots in Strathcona from sale until further notice.

### TEN YEARS AGO

From the Morning Bulletin, Friday, January 14th, 1916.

El Paso, Texas—Marital law has been proclaimed here.

London—The Austrians have over-run Monte Negro.

In Supreme Court, George E. Leek was found guilty on the charge of having murdered Noah Hoover near Dunsmuir.

## DR. FRANK CRANE'S EDITORIAL

### THE FACE OF THE DUNES

SOME time ago the writer visited the wild sand dune country of northern Indiana.

This sandy waste stretches along the southern shore of Lake Michigan between Gary and Chicago City. The high sandhills are ages old. Some are "wandering dunes." Moving slowly through the years they have worked eastward. In their track now dunes are born. Others are fixed and on their sides sand cherries and stunted pines struggle for existence.

Indians have come and gone; pioneer scouts have given place to adventuressettlers and they in turn have made way for the teeming city breed; but the dunes have remained.

Over them the great invention of the age had a cradle and a cradle.

Here Octave Chanute made experiments with gliders, giving his information to the Wright Brothers later on. And here day and night great roaring planes fly overhead carrying the mails from Cleveland and Chicago.

The dunes have outlived the wilderness, they continue untamed in the heart of civilization.

In their enduring ruggedness there is a message of inspiration that helps one who feels it to "hold on" in the trials of life.

The face of the dunes is like the face of the common people. It is grim, determined, enduring.

It possesses within the kindly grandeur of the towering mountains for the abject serfdom of impotent deserts.

Through the passing childhood it has remained, remained in spite of wind and wave, remained one of the enigmas of geological endurance.

Buffeted, driven about, torn asunder, the particles yet remain, and remaining, combine in lines that alter day by day, that move, that retreat, that advance, but lines that lie in the shadow of evening, grey, gaunt, lonely and deformed—but sublimely everlasting.

In the face of the dunes there is seen this example of endless endurance.

In its barren beauty there speaks a message of grim courage and indomitable lasting power.

**SHOPPING FOR HUSBANDS.**  
Despite the assertion of Mr. George Bernard Shaw that men have no chance to escape when a woman has chosen him, it is in town from Grand Rapids with fur for sale.

There is more happiness in the world if the girls of twenty to twenty-five—more than men have—were to be picked out by their mothers as husbands as they do in picking out their future husbands.

### COME TO BREAKFAST

Joseph Mercury—Canada, with a view of \$25,000,000 worth of oats, ought to make a great appeal to British exporters. Think what quantities of porridge that would make.

### THE NORTHERN PACIFIC PORT

The Daily News, Prince Rupert, it seems everything to Prince Rupert to get a great right in regard to the grain business. The aim should be to get cargo going through the elevator via Vancouver.

### PROSPERITY IN THE WEST

Montreal Gazette—It has been widely said that when the western provinces are prosperous the rest of the Dominion prospers also. Great wheat harvests are good for the west and good, therefore, for the whole of Canada, but western prosperity does not depend upon the wheat crop alone.

### UPS AND DOWNS

Concerning Britain's Communist M.P., it is well to note that he got his money before he got his theories.

The automobile isn't perfect yet. The wheel isn't easy to see through, but yet too difficult to go through.

In the beginning, however, the graphic arts appeared to many intelligent people as to be too difficult to see through.

"My lady's throat is like a lot" sings the poet. Probably his sweetie, And doubtless her head reminds him of plums here.

The hard part isn't to make the car last, but to reconcile yourself to keeping it when it looks like that.

The making of a good child requires only two things: (1) a sensible parent, (2) a sensible female parent.

Only a polite Frenchman could admit a fault in his own stock and place the blame on the creditor.

## LADY GOLFERS PLAN FOR CHAMPIONSHIPS

**Semi-Annual and Special Meetings Will Take Place on February 3**

TORONTO, Jan. 14.—Announcement was made recently that the semi-annual meeting of the Canadian Ladies' Golf Union would be held at the Mount Royal Hotel on Wednesday, February 3. An executive meeting will be held in the morning, previous to the semi-annual luncheon to be held for the golfers. The guests at the luncheon will be

Miss Adele Mackenzie, of Toronto, Canadian open champion, and Miss Helen Paget, of Ottawa, closed champion.

At the special meeting the question of holding the open and closed championships in the same year, and the semi-annual, plans for the championships, to be held this year at Winnipeg, will be decided upon. The meetings will be provided over by Mrs. Leonard Murray, president of the union, while all of the other branch clubs will be represented, and it is expected that delegates will be in attendance from all of the provinces, Toronto, London and other places.

## MEN HANGED AT VANCOUVER; BOTH DIE GAME

"Step on It," "Cannon Ball"  
Baker's Last Words to  
Executioner

PENALTY PAID FOR  
HI-JACKING MURDERS

Leader of Gang Puffs Cigar-  
ette Until Black Cap Is  
Ready

Exclusive to Bulletin  
OAKLAJA JAIL, Jan. 14.—  
Owen R. "Cannon Ball"  
Baker and Harry P. "Step on It"  
Baker, hanged here this  
morning for the hi-jacking of the  
Vancouver gas-bus Hazel G. and  
the murder of Captain W. Gillis  
and his 17-year-old son, died  
game.

"Step on it, Bill," said Baker as  
he and Rowan stepped back to back  
on the double scaffold in the official  
hangman, "stepped on it"  
by throwing the knife controller to  
drop, and in a brief second both  
men were plunged into eternity.

Baker and Rowan walked to the  
scaffold arm and stood for a few  
moments in the lead smoking a cigarette.

Fifteen seconds after the two Am-  
erican executioners stepped on the plat-  
form of Oaklaia, the gallows swung  
down exactly before 12 percent.

"Baker is God!"  
Baker walked from his cell nonchalantly  
smoking a cigarette. He  
himself followed his partner in  
hurry.

On the gallows the little man  
made an official executioner for Can-  
ada, drew in correct manner gas  
of curiosity and strain. He told  
Baker he must stop smoking. At this  
moment Baker pushed out his  
lips for the hangman to remove the  
word.

"Good bye Rowan," called the  
leader of the pair.  
"Good bye Baker," answered his  
partner.

"Now step on it," called the execu-  
tioner. Baker and Rowan stepped on  
the platform and the gallows swung  
down.

Both men stepped soundly for  
several hours during the night and  
both refused breakfast. Rowan re-  
fused to eat. Baker, however, ate  
a small amount of food.

Rowan had been in the  
Washington jail had been taken to  
Oaklaia. He was a well-known  
businessman of Seattle who  
secured a position for his partner  
in a cigar store. It was while in this  
position that Rowan and Baker  
joined the booze-pirates gang whose  
business was to kidnap and  
hanging.

**Fight Head One**  
The murder for which the men  
were executed took place on the  
night of Jan. 13, 1927, and today's  
execution followed their previous  
hanging struggle against the law.

On the part of Baker and Rowan  
the fight was a long one. Baker  
fought a desperate battle on the  
gallows. He refused to give up  
until the executioner had cut his  
throat.

When that came Rowan  
gave up. He was a well-known

secured a position for his partner

position that Rowan and Baker  
joined the booze-pirates gang whose

**Murder Sleep at Time**  
Rowan was given a sleep at the  
moment of a sleep told by Rowan  
about two weeks before the day  
of the execution. In the meantime  
the young prisoner in the condemned  
cell confessed to the murder of the  
latter was in a drunken sleep at  
the time the executioner cut his  
throat.

**CONVICTIONS  
UNDER LIQUOR  
ACT FALL OFF**

Record an Argument in  
Favor of System in  
Effect Now

Convictions for offences under  
the Liquor Act are showing a de-  
cided falling off under the present  
system of handling the liquor prob-  
lem, according to W. Wallace How-  
son, secretary of the Moderate  
League, who quotes figures for the  
last month from January to Oc-  
tober, 1927, the last year under the  
old liquor act, and compares them  
with the figures for the same period  
in 1928 under the present act.

The figures quoted show a dis-  
tinct falling off in convictions. In  
January, 1927, there were 73 con-  
victions, and in January, 1928, there  
were only 41. In February, 1927,  
there were 65 convictions, and in  
February, 1928, there were only 38.  
In March, 1927, there were 58 con-  
victions, and in March, 1928, there  
were only 31. In April, 1927, there  
were 52 convictions, and in April,  
1928, there were only 28. In May,  
1927, there were 45 convictions, and  
in May, 1928, there were only 22.  
In June, 1927, there were 38 con-  
victions, and in June, 1928, there  
were only 18. In July, 1927, there  
were 31 convictions, and in July,  
1928, there were only 12. In August,  
1927, there were 24 convictions, and  
in August, 1928, there were only 8.  
In September, 1927, there were 17  
convictions, and in September, 1928,  
there were only 5. In October, 1927,  
there were 10 convictions, and in  
October, 1928, there were only 3.

## CONVICTIONS UNDER LIQUOR ACT FALL OFF

Record an Argument in  
Favor of System in  
Effect Now

Convictions for offences under  
the Liquor Act are showing a de-  
cided falling off under the present  
system of handling the liquor prob-  
lem, according to W. Wallace How-  
son, secretary of the Moderate  
League, who quotes figures for the  
last month from January to Oc-  
tober, 1927, the last year under the  
old liquor act, and compares them  
with the figures for the same period  
in 1928 under the present act.

The figures quoted show a dis-  
tinct falling off in convictions. In  
January, 1927, there were 73 con-  
victions, and in January, 1928, there  
were only 41. In February, 1927,  
there were 65 convictions, and in  
February, 1928, there were only 38.  
In March, 1927, there were 58 con-  
victions, and in March, 1928, there  
were only 31. In April, 1927, there  
were 52 convictions, and in April,  
1928, there were only 28. In May,  
1927, there were 45 convictions, and  
in May, 1928, there were only 22.  
In June, 1927, there were 38 con-  
victions, and in June, 1928, there  
were only 18. In July, 1927, there  
were 31 convictions, and in July,  
1928, there were only 12. In August,  
1927, there were 24 convictions, and  
in August, 1928, there were only 8.  
In September, 1927, there were 17  
convictions, and in September, 1928,  
there were only 5. In October, 1927,  
there were 10 convictions, and in  
October, 1928, there were only 3.

**DESPAIR STALKS IN  
ANTHRACITE FIELDS  
OF PENNSYLVANIA**

SCRANTON, Pa., Jan. 14.—Great  
despair stalks through the anthracite  
fields, and depression strikes deep  
into the families of hundreds of  
mine workers who it is feared will  
lose their jobs. The situation is  
desperate. The mine owners are  
refusing to pay the wages. The  
workers are starving. The situation  
is desperate.
